News and Updates

- Make sure you apply to SHCN program and reapply when the time comes.
- Council being created at Children's Mercy consisting of EMT, special needs kids, parents and family members of special needs kids.

School Based Health Centers

- SBHC is a clinic within the school it's self.
- Who will be running the School Based Health Center? Anyone working in family health at the clinic partnered with the school.
- KDHE Maternal Health will be collaborating with AMCHP to help with funding. Title V will most likely help fund the kick off but will not be long term funding.
- Insurance will be billed, not a fee based service.
- Will be providing well child checkups.
- Would like to have an outside entrance for EMS or sick kids.
- Standing Questions...
 - o Can prescriptions be written for the child?
 - o How will this interfere with class?
 - o What is the confidentiality agreement?
 - o When going to the clinic, will it be an excused absence or unexcused?
 - o What is the relationship between SBHC and the school nurse, will the nurse be replaced?
 - o How private are the exam rooms?
 - o Will the office be in the nurses office or be in a separate building? Will this space be rented, leased or a mobile clinic?
 - o How much access will the school have to medical records?
 - o What is the referral system?
 - o Will mental health be incorporated?
 - o What kind of services will be provided for LGBTQ community?
 - o Can you sign consent forms for shots at enrollment?

Kansas Family/ Peer Support Groups

- Program is used to connect parents to other parents of children with similar disabilities but also to similar situations.
- Is not only beneficial to parents, but to the whole family.
- Not only supports parents after diagnosis but also the families that never get a diagnosis.
- Would like to expand from only kids with SHCNS to all kids with disabilities.

- This is a part of the Title V state plan.
- Software is developed especially for this program.

Birth Defects Program

- Looking to rename the Program.
- Moms who screen positive for Zika will receive a letter and special health services.
- Birth defects will be monitoring mothers with Zika.

Hope Kids

- Program for children with life threatening conditions.
- Children and their families will be able to attend fun activities at no cost to them other than transportation.
- Not only helps the kids but also helps the whole family.
- A parent support network is also available across all five chapters in the United States.
- Working on a resource page.
- In order to attend you must complete the online application.
- Parents who have lost their children also will still have a support system.

Reimbursements

- A new process for reimbursements is being worked on.
- Anyone driving will be payed for the fastest route.
- The sooner you complete the Survey Monkey, the sooner you will be reimbursed.
